# PKD Foundation

## Our Mission

Promote programs of research, advocacy, education, support and awareness in order to discover treatments and a cure for polycystic kidney disease and improve the lives of all it affects.

Polycystic kidney disease (PKD) is one of the most common, life-threatening genetic diseases. The PKD Foundation funds research to find treatments and a cure, and provides information and support to people affected by PKD.

## Our Vision

One day, no one will suffer the full effects of polycystic kidney disease.

# Logo

Our logo is inspired by the circular cells in our body, and the wholeness and comfort of a circular form. The standard way to display our logo is full-color.

# Logo

The 'exclusion zone' refers to the area around the logo which must remain free from other copy to ensure that the logo is not obscured. As the diagram indicates, the 'exclusion zone' is equal to that of the PKD Foundation circle.
