

Together, we can help advance critical research into treatments and a cure for PKD by funding studies and participating in clinical trials. We can advocate for increased government spending on PKD research, dialysis support, and kidney transplant care. We can spread awareness to support every person affected by PKD; but it will take all of us.

How Will You Help End PKD?

Join the Walk for PKD

It's the nation's largest gathering of the PKD community, and our signature fundraising and public awareness event, where every dollar raised supports our vision of ending PKD.

Volunteer with Us

Volunteers are an integral part of the PKD community and ensure no one faces the disease alone. Choose from a variety of virtual and local opportunities to make a difference.

Join the ADPKD Registry

Drive the next medical breakthrough by joining the ADPKD Registry. You can easily, securely, and confidentially provide information about your ADPKD experience to help advance research.

Share Your Story

With Voices of PKD, you can give a voice to a widely unknown disease, inspire others, and spread awareness by sharing your PKD story.

Fundraise Your Way

Looking for a hands-on way to support PKD research? Fundraise Your Way allows you to turn your passion into a PKD Foundation fundraiser.

Subscribe to ACT Alerts

Move research forward by participating in clinical studies. Receive notifications about ADPKD or ARPDK studies near you when you subscribe to Accelerating Clinical Trails (ACT) Alert emails.

Subscribe to Advocacy Alerts

Help us further legislation and increase federal research funding to improve the lives of the PKD community. Sign up to receive emails and texts about important advocacy initiatives.

Subscribe to PKD Foundation Texts

Want the latest PKD updates, news, and resources sent directly to your phone? Text ENDPKD to (816) 281-6072 to opt-in for PKD Foundation text messages. Message and data rates may apply.

Follow Us on Social Media

Stay updated on all things PKD by following our Facebook, Instagram, LinkedIn, Twitter, X, TikTok, and Bluesky accounts.

We inspire hope by leading and convening research and community programs focused on discovering new treatments and, ultimately, a cure for PKD. Learn more at pkdcure.org/get-involved
